Create the Home of Your Dreams It is easy to meet Francia Fusik...

the founder of All in One Decorating Solutions. Just looking at the company's logo, it says it all. Right above the company name is the universal symbol for OM, which is a sacred syllable uttered in many mantras of the Hindu religion. Although Fusik is not of Hindu religion-, she wanted the business to focus on unity and symmetry-ideals of which she feels the OM reflects. To her the OM is the symbol that suggests everything from the beginning to the end— it is balance and harmony. The business model of the company reflects her spiritual and philosophical ideals.
